

Vivago and Pontosense Start Cooperation

Vivago Oy is thrilled to announce a groundbreaking partnership with Pontosense to bring the cutting-edge Silver Shield Fall Detection solution to Finland! As a leader in smart safety and wellbeing solutions for preventive care, Vivago recognizes the growing need for accurate fall detection making this collaboration a perfect match.

"This cooperation is like a match made in heaven! The market demands precise fall detection, and Silver Shield fits seamlessly into Vivago's offerings," says Henrik Resman, CEO of Vivago.

Pontosense, headquartered in Toronto, Canada, has a global presence, with its sensors deployed in countries such as the United States, the United Kingdom, Germany, and Japan. Their Silver Shield solution harnesses patented mmWave RADAR technology and advanced AI algorithms to deliver superior indoor motion tracking and real-time fall detection. With instant alerts and industry-leading wireless accuracy in detecting falls, movement, and room occupancy, this innovative technology sets a new standard for proactive safety and care.

"We're excited to partner with Vivago, a pioneer in Finland in smart safety and wellbeing solutions. Their commitment to preventative care aligns with our mission to enhance global safety through ambient sensing." says Alex Qi, CEO of Pontosense. "Together, we'll set a new standard in fall detection and care in Finland."

Together, Vivago and Pontosense are redefining wellbeing, empowering individuals with greater safety, independence, and peace of mind!
